# Procedure for Day-Care Centers, Nurseries and Schools in Connection with Corona Cases

- Information from the State Health Department -

## Regarding Ill or Infected Persons

**A child or adolescent or a person working in a day-care center, nursery or school shows symptoms of illness**

Procedure as in the diagram  
“Dealing with Symptoms of  
Illness and Colds in Children  
and Adolescents in Day-Care  
Centers, Nurseries and  
Schools” or similarly for  
persons working there.

**Proof of corona virus in a child or adolescent or a person working in a day-care center, nursery, school**

- » Contact the public health department to discuss the further procedure
- » Preparation of a list of names and addresses of the persons affected:
  - Group incl. contact details of legal guardians (phone no., e-mail address),
  - Pedagogical staff (phone no., e-mail address),
  - If necessary, other persons working in the day-care center, nursery or school (phone no., e-mail address),so that the public health department can initiate the contact person identification on this basis.

**A doctor diagnoses a suspicion for COVID-19**

- » Contact the public health department (and, if necessary, report according to Art. 6 IfSG, if not already done by the physician).

**Note: The person, child or adolescent affected is excluded from attendance and prohibited from entering the premises.**

## Regarding Contacts

**The contact person is a person who has had contact with a person infected with the corona virus**

Refer the inquirer to the public health department, so that the investigation of further contact persons can be initiated.  
No further action required for the day-care center, nursery or school.

**Person who had contact with a contact person**

No need for action on the part of the day-care center, nursery or school and the inquiring person.
